
Items	Basic information
Model name	Modified version of BTOPMC
Runoff simulation area	Interval watershed area between Fuji and Yutan station (1456.56 km ²)
Calibration period	1979–1984
Validation period	1985–1987
Time step	daily
Inflow section of simulation area	Yutan station (Control area: 747.4 km ²)
Section for calibration and validation	Fuji station (Control area: 2203.96 km ²)
